Block cover cylinder crankcase

Mercedes-Benz

OM 651

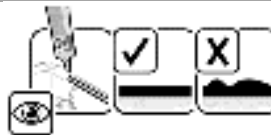

Whether car, commercial vehicle, motorcycle or vintage car (or motor racing and water sports), Elring offers an extensive range of products for professional component sealing – used millions of times around the globe.

We recommend Dirko™ gray as a sealant for the block cover (crankcase) of a Mercedes-Benz OM 651.

	Elring No.
Bulgarian Croatian Czech Danish Dutch English French German Greek Hungarian Italian Latvian Lithuanian Polish Portuguese Romanian Slovak Spanish Swedish	036.163

Remove remnants of old sealant with plastic spatula.
Clean and degrease surfaces to be sealed.

Check correct positioning of adapter sleeve/bush before applying sealing compound.
Apply Dirko™ evenly without interrupting sealing bead.
Diameter of sealing bead: 2.0 mm
Nozzle diameter: 1.5 mm
Do not spread sealing bead.
Processing temperature:
+5 °C to +30 °C

Tighten bolts to 9 Nm. Follow correct sequence for tightening of bolts (manufacturer's specifications).
