

Experience the real difference

- and develop your cooling business

Explore the added values of our high-quality products. Our First Fit / Multi Fit concepts were developed for the benefit of all segments of the automotive market – wholesalers, mechanics and end users. The concepts comprise features in connection with Nissens' engine cooling parts and are easily identified in all Nissens' catalogues.

First Fit

- Find all additional parts such as O-rings, radiator caps, nuts etc. in the radiator box
- Experience a time-saving installation of the product as you do not have to search for the small parts at other suppliers

Multi Fit

- Choose Nissens' Multi Fit products where a radiator or condenser fits several car makes and models
- Experience a quick and easy installation in different cooling systems as part connections etc. are shaped universally
- Reduce inventory costs by optimizing stocked part numbers

First To Market

- Be the first on the market to supply parts for the latest models with Nissens' First To Market products - recognized as the very first aftermarket-manufactured parts
- Offer your customers a product range containing the newest products on the aftermarket

Contact your local sales office or one of the official Nissens distributors to get product catalogues and to learn more about our sales conditions.
