

First Fit | Volvo Radiators with Bushings

Dear Customers!

We are happy to announce the relaunch of the following Volvo radiators:

Volvo Radiators Complete, **First Fit** radiators including 2 bushings

Nissens	Model	OE
65552A	S80 2.4 i 20V Aut. (98-)	8601431, 8601584, 8602753, 8603840
65553A	S60 Aut.(98-) and C70 T Aut. (02/00-)	36000487, 36000488, 36002407, 8601433
65557A	S60 Man. (98-) and C70 T Man. (02/00-)	8601432, 8601563, 8601585, 8602412
65558A	S80 2.4 i 20V Man. (98-)	8601430, 8601583
65613A	XC90 Aut/Man (02-)	36000464, 360024087, 8602675, 8602864

The radiators now come with the 2 bushings which must replace the old ones when installing the new radiator.

The reason why it is not recommendable to re-use the old bushings is that the plastic is fragile and the rubber crumbled due to the heat and moisture it has been exposed to over the years of operation. This means that it is almost impossible to remove the old radiator without damaging the bushings and therefore to re-use them for the new radiator.

The bushings are not available from the Volvo dealer and not easily sourced in the aftermarket either.

All the above Volvo radiators are now marked **First Fit** in our catalogue.

> See the next page showing the bushings.

First Fit | Volvo Radiators with Bushings

Bushings

The bushings are placed inside the brackets, on both sides of the radiator.

First Fit concept

Nissens is the first manufacturer in the industry to offer a complete cooling solution - **First Fit** - which helps you to:

- **Be a professional parts supplier to your customers**
One radiator, which includes all necessary parts to get the job done.
- **Lower your net working capital**
One radiator fits multiple applications, all necessary parts are included in the box.
- **Minimize master data maintenance**
Less headaches and less administrative costs in connection with managing multiple parts.
