Assembly instructions for 713 6604 40

Two different protective rings in the contents

Manufacturer: Volvo

Models: C30 10/2006 to 12/2012
 C70 II Cabriolet from 03/2006
 S40 II (MS) from 01/2004
 V50 (MW) from 04/2004

Part no.: 713 6604 40

In addition to the wheel bearing and the axle shaft bolt, the contents for the FAG wheel bearing set with part number 713 6604 40 includes two protective rings, only one of which is required.

You should therefore ensure that you use the correct protective ring during assembly. The rings look similar to each other and the only difference between them is the section height (see image 1).

Image 2: Contents for the wheel bearing kit 713 6604 40

The protective ring measuring 9.5 mm is used on the long drive shaft. The protective ring measuring 7 mm is used on the short drive shaft.

Image 1: The only difference between the protective rings is the section height

Long drive shaft	Section height of the protective ring: 9.5 mm
Short drive shaft	Section height of the protective ring: 7 mm

Please observe the vehicle manufacturer specifications!
