

Installation Instructions

While placing the filter on the bracket, make sure the marker on the filter is placed like it's shown on picture 1.

Take the bracket shown in picture 2 and place it on the yellow and blue tubes like it's shown in picture 3.

Push the bracket firmly until it fits like it's shown in picture 4.

Take the other blue colored tube and white colored tube and place them like it's shown in picture 5.

Take the already assembled tubes with the bracket from picture 4 and place them on the filter as shown in picture 6. Make sure the colors of the tubes match the color codes of the filter. Press firmly until you hear a click sound.
