Model year: 2004 –

Engine: 2,4 TDCi

LuK DMF: 415 0388 10

Image 1: Comparison of LuK DMF 415 0388 10 with slide bearings (left) and with ball bearings (right)

As part of our continuous efforts to improve our products, the bearing design for dual mass flywheel (DMF) 415 0388 10 has been changed to feature a bush type bearing instead of ball bearings.

During the transitional period, both dual mass flywheels with ball bearings and those with bush type bearings may be supplied.

Despite their different designs, both dual mass flywheels can be used universally in the vehicles specified in the catalogues.

Observe the specifications of the vehicle manufacturer!
